In case of redemption/repurchase of the units by the Asset Manager, units will be taken out from the Central Depository System after setting up remat request by the Custodian and acceptance of remat request by the Asset Manager.

1.7. Systematic Investment Plan (SIP)

There will be a Systematic Investment Plan (SIP) for the investors after the formation of the fund. SIP is a smart and hassle-free mode for investing money in mutual funds. SIP allows an investor to invest a certain pre-determined amount at a regular interval (monthly, quarterly, yearly etc.). It is a planned approach towards investments and helps to inculcate the habit of saving and building wealth for the future.

1.7.1. Buy and Surrender process in SIP:

An investor can invest through SIP either by auto debit system provided against investor's Bank Account or by providing monthly predetermined cheques via selling agents at a regular interval (monthly, quarterly, yearly etc.). Investor must have a BO Account; he/she/the institutional holder will get the units in his/her/the institutional holder's BO Account and may get a discount from ongoing Weekly "Investor's Buy Price" of the fund.

It is advisable to continue SIP investments with a long-term perspective, there is no compulsion. Investors can discontinue the plan at any time. If an investor wants to terminate the SIP before two (2) years, 1% discount from the "Investor's sale/surrender price" may be applicable on total accumulated invested amount on the date of cancellation of the scheme. After maturity of SIP, the investor can easily surrender his/her/the institutional holder's total units through the Asset Manager or the Selling Agents.

1.7.2. Benefits may be offered for Investors such as:

SIP encourages a disciplined investment; while invested through SIP, investor commits himself/herself to save regularly. Different benefits may be offered as follows:

- 1) *Flexibility*: Investor can start SIP with a very small amount that is Tk. 1,000/2,000/3,000/4,000/5,000 or multiple of Tk. 1000. One can also increase/ decrease the amount being to be invested in regular basis.
- 2) *Flexible SIP Tenor*: The SIP will be offered for at least 2 years or any other higher period set by the Asset Manager. However, investor can set SIP scheme for 3 years/5 years/7 years /10 years. After this period, the individual scheme will be matured and may surrender or continue after maturity. If surrendered, no fees /charges may be charged on surrender and may also offer highest premium over the declared surrendered price at that time.
- 3) *No Minimum Lot Size*: There will be no minimum lot size under the SIP as like normal investors. Based on "Investor's Buy Price" per unit available for SIP investors, units will be credited to investor's BO account. However, any fraction amount remaining will be converted when it sums up to one unit. The fractional amount will be kept as liability of the fund in a separate account head.

- 4) *Buy at Discount and Surrender at Premium:* SIP investor may buy units at a discount from Weekly “Investor’s Buy Price” offered to the normal investors. In addition to that, SIP investor may surrender at a premium of repurchase price offered to normal unit holders at maturity as per SIP brochure.
- 5) *CIP Option for the SIP Investors:* SIP investors can choose either option of cash dividend or cumulative investment plan (CIP). If a SIP investor chooses CIP (i.e. Dividend reinvestment process) instead of cash dividend, they may also enjoy CIP units at a discount of prevailing “Investor’s Buy Price” used for CIP conversion. After CIP conversion, they will get dividend on total number of units in the next year.

Detailed of SIP Scheme, Scheme information will be provided in the Scheme Brochure in future.

Chapter 2. BACKGROUND

2.1. Preamble to the formation of Capitec Popular Life Unit Fund

A mutual fund is a professionally managed investment tool that collects money from the individual and institutional investors with a view to investing the fund in diversified securities like stocks, bonds, money market instruments, and other securities. It is the most cost-effective way to diversify the investment portfolio across different asset classes. Moreover, funds offer professional money management at a reasonable cost. In Bangladesh, most of the people are ignorant about investment management strategies, thus the importance of such professional management services is beyond question.

In today's world, Mutual funds are widely considered as a dependable investment vehicle to offer investors attractive risk-adjusted returns by pooling assets for various investment purposes. The mutual fund industry came into widespread public prominence in the mid-1980s and during the 1990s technology boom. Since the starting, this industry has gone through peaks and troughs but have largely managed to grow and strengthen both in the developing and developed markets of the world.

Mutual fund was first introduced in Bangladesh by Investment Corporation Bangladesh (ICB), a public sector financial institution, in 1980. Private companies entered in the industry in around 2000. The mutual fund industry in Bangladesh is still at its emerging stage, offering room for greater progress and product innovation. Initially the fund managers and investors in Bangladesh demonstrated their growing interest in closed-end mutual funds, the space for promoting open-ended funds have also been created successively. Still, Bangladesh's mutual fund investment are among the lowest in the world, offering a vast untapped opportunity for local asset managers.

Bangladesh has a huge untapped market potential for the mutual fund industry, recognizing this prospect and need to offer a dependable solution, Capitec Asset Management Limited (CAML) launched its first Open-end Sharia Compliant mutual fund "CAPITEC Padma P.F. Shariah Unit Fund" in the second half of 2018. In order to meet the diversified investments needs of individual and institutional investors, CAML has decided to come up with another investment solution namely "CAPITEC Popular Life Unit Fund". It will be an Open-end mutual fund that aims to maximize risk adjusted returns in the form of capital appreciation, dividend and interest.

2.2. Rationale Behind the Proposed Mutual Fund in the Context of Present Market Scenario

The capital market of Bangladesh is still in an emerging stage which exposes both prospects and challenges. Even though Stock exchange was formally established as early as 1954, activities remained very low until the 1990s. In the journey of last six decades, Bangladesh's capital market experienced both bubble and bursts. But, over the years this market changing towards more organized and regulated form. There are plenty of reasons to introduce diversified mutual fund in Bangladesh.

Macroeconomic Factors

Bangladesh is currently placed in the 42nd position among global economies, in terms of size and it is likely to improve its ranking, becoming the 26th largest in 2030. A long-term projection of the HSBC Global Research "The world in 2030", unveiled in September 2018, showed the possible economic development of the country. According to the report, the real GDP growth of Bangladesh would be 7.1% per year up to 2030. Current GDP growth rate is 7.28% and it has been a steady rate for consecutive three years. The economic transformation began through emerging from agriculture intensive economy to manufacturing followed by a

gradual shift towards the service sectors. According to the Bangladesh Bureau of statistics, the approximate sectoral share of GDP (constant price 2017-18) consists of Agricultural sector 14%, Industrial sector 33% and Service sector 52%. Additionally, young people represent nearly half of the total population, hence the country yet to get the full potential from the demographic advantages in the coming years. Bangladesh's infrastructure also developing rapidly and Foreign direct investment increases in several sectors including power, manufacturing, pharmaceuticals, service etc.

Capital Market Situation

Bangladesh capital market has experienced historical changes and still an emerging market. The stock market grows robustly in the last few years. After the 2010 bubble burst, people confidence is rebuilding. As the economy is becoming powerful gradually, the enlisted companies are also growing and expanding beyond expectation. The macroeconomic situation and the excellent growth in promising sectors made the capital market an attractive investment prospect. According to the World Bank, the market cap to GDP ratio of Bangladesh is only 34.50%, which shows the market is highly undervalued, compare to the other regional economies such as India (88%), Malaysia (144.80%) and Indonesia (51.30%).

The size of the mutual fund industry is quite small compared to the global market. At the beginning of 2018, Bangladesh AUM to GDP ratio was below 1%, whereas India is around 13%, Malaysia 63% and the global average is 32%. Moreover, the undervalued capital market, excellent macroeconomic growth, and strict regulatory framework make Bangladesh's mutual fund industry highly attractive for long term investment.

2.3. Advantages of Investing in Capitec Popular Life Unit Fund

CAPITEC Asset Management will manage the fund in a manner that will maximize the risk adjusted return for its investors. Investors will relish the following advantages by investing in CAPITEC Popular Life Unit Fund:

- CAPITEC Asset Management Limited follows a corporate governance culture which will ensure the proper compliance with *সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১*.
- Diversified portfolio to be developed for the fund shall help in dipping the investment risks for the investors.
- The fund will be managed by the industry experts, who have a decade of experience in the capital market. They will make sure that the investment decision is based on the proper fundamental, technical and all other appropriate analysis.
- As the open-end fund, it will not be subjected to the demand-supply mechanism in the exchange trade. The surrender price and the sales price will be calculated based on the Net Asset Value (NAV) as per the BSEC rules and regulation.
- An investor can hold a larger number of securities by holding a single unit of a Mutual fund which will not be charged a higher amount of transaction fees like the brokerage trading. At the same time, liquidation of a portfolio is quite easy compare to the direct involvement in the stock trading.
- Income will be tax-free up to a certain level. As permitted under the Finance Act. Investment in the fund would qualify for investment tax credit under section 44(2) of the Income Tax Ordinance 1984.
- In Bangladesh, Mutual funds enjoy the 10% reserve quota for all Initial Public Offering (IPOs). Historically IPOs in Bangladesh usually perform well. So, by investing the mutual funds, an investor can be a part of the facility.

- 10) The Fund shall not involve in option trading or short selling or carry forward transactions.
- 11) The Fund shall not buy its own unit.

3.6. Valuation Policy

The Fund intends to determine its NAV per unit on the last business day of each week by dividing the value of the net asset of the fund (the value of total assets less total liabilities as per Rule 60 of the *সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১*, by the total number of units outstanding. As per section 58 of the *সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১* the valuation policy of investment of the fund need to be approved by the Commission in the Trust Deed as follows:

- 1) For listed securities held in the portfolio of the Fund, the average quoted closing market price at the Stock Exchange(s) on the date of valuation shall be taken into account for calculation of Net Asset Value (NAV) of the Fund or as specified in *বিধিমালা*.
- 2) For Participation Term Certificates held in the portfolio of the Fund, the accrued interest on such instruments on the date of valuation shall be taken into account for calculation of Net Asset Value (NAV) of the Fund.

- 3) The Fund shall fix the valuation method as specified in the বিধিমালা.
- 4) The Fund shall follow the method approved by the Commission for valuation of the non-traded investments, if any, the Asset Management Company and the Trustee shall at least periodically review the non-listed investments, if any, and the Trustee shall at least periodically review the value of such investments. The auditors shall comment on such investments in the annual report of the Fund.
- 5) When the securities were not traded in the Stock Exchanges on the particular valuing date, immediate previous average price, which one is nearer, but no longer than 30 (thirty) days to the valuing date will be taken into account.
- 6) The valuation of those Listed Securities not traded within previous one month will be made with their reasonable value but shall not be more than the intrinsic value. Such valuation must be approved by the Trustee and commented upon by the Auditors in the Annual Report of the mutual fund but shall not be more than the intrinsic value of the securities.
- 7) For securitized debts, debentures, margin or fixed deposits, the accrued interest on such instruments on the date of valuation shall be taken into account in any calculation of Net Asset Value (NAV) of such securities in the portfolio of the fund.
- 8) The Valuation of non-listed securities will be made by the Asset Management Company with their reasonable value and approved by the Trustee and commented upon by the Auditors in the Annual report of the Fund.
- 9) Once non-listed securities are valued, the valued amount will be considered for purpose of valuing the Fund's assets in any interval of time until the securities are further revalued by the Asset Management Company.
- 10) The Asset Management Company and the Trustee will value the non-listed securities at least once in every three months.
- 11) In case of deferred expenses, accrued expenses for the period will be taken into account for determining total liabilities.

Following the valuation criteria as set forth above, the fund will use following formula to derive NAV per unit:

$$\begin{aligned} \text{Total NAV} &= \text{VA} - \text{LT} \\ \text{NAV per unit} &= \text{Total NAV} / \text{No. of units outstanding} \\ \text{VA} &= \text{Value of Total Assets of the fund as on date} \\ \text{LT} &= \text{Total liabilities of the fund as on date} \end{aligned}$$

VA = Value of all securities in vault + Value of all securities placed in lien + Cash in hand and at bank + Value of all securities receivables + Receivables of proceeds of sale of investments + Dividend receivables, net of tax + Interest receivables, net of tax - Issue expenses amortized as on date - Printing, publication and stationery expenses amortized as on date.

LT = Value of all securities payable + Payable against purchase of investments + Payable as brokerage and custodial charges + All other payable related to printing, publication and stationery + Accrued deferred expenses with regard to management fee, trustee fee, annual fee, audit fee and safe keeping fee.

3.7. Limitation of Expenses

- 1) The initial issue expenses in respect of the fund shall not be over 5% (Five percent) of collected amount of the fund raised under the Scheme or any ceiling as determined by the AMC which is approved by the Commission and the Trustee and shall be amortized within 7 (seven) years on a straight-line method.
- 2) The total expenses charged to the fund except the amortization of initial issue expenses including transactions cost in the form of stock brokerage against buy and sell of securities forming a part of acquisition or disposal cost of such securities, transaction fees payable to the custodian against acquisition or disposal of securities, CDBL charges, the annual registration fees payable to the Commission, audit fees, cost for publication of reports and periodicals, bank charge, selling agent fee, Trustee fee, Management fee etc. shall not exceed 4% (Four percent) of the weekly average net assets outstanding during any accounting year or as may be determined by the Rules.

3.8. Price Fixation Policy

After completion of initial subscription, the fund will be made open to the investors for regular buy-sale of units. The date of opening shall be declared by the Asset Manager upon approval of the Trustee and with due intimation to the BSEC.

The Asset Manager shall calculate the Net Asset Value (NAV) on the last working day of every week as per formula prescribed in the বিধিমালা and shall disclose sales price and repurchase/surrender price per unit determined on the basis of NAV before commencement of business operation of the first working day of the following week to the Commission and to the investors through at least one national daily newspaper, the website of the Asset Manager of the fund. The difference between sale price and surrender value shall be determined by the Asset Management Company. The difference between sale price and surrender value shall not exceed 5% of the sale price of the unit. The Asset Manager may reduce the above difference for systematic investment plan (SIP) or any other ground with the approval of the Trustee.

3.9. Sale and Repurchase Procedure

- 1) The units of Capitec Popular Life Unit Fund may be bought and surrendered through Capitec Asset Management Ltd and authorized selling agents appointed by the Asset Manager from time to time and any other procedure as prescribed by the Asset Manager.
- 2) During initial subscription minimum purchase quantity is 500 (five hundred) units for individual investors and 5,000 (five thousand) units for institutional investors.
- 3) Application for purchase of units should be accompanied by an account payee cheque/pay order/bank draft in favor of “Capitec Popular Life Unit Fund” for the total value of units.
- 4) After clearance/encashment of cheque/draft/pay order, the applicant will be issued with a Confirmation of Unit Allocation against every purchase of units he/she/the institutional investor applies for.

- 5) Partial surrender is allowed without any additional cost subject to minimum surrender quantity of 500 (five hundred) units for individuals and 5,000 (five thousand) units for institutional investors. Upon partial surrender, the Unit holder will be issued with a new Confirmation of Unit Allocation representing the balance of unit holding.
- 6) All payments/receipts in connection with or arising out of transactions in the units shall be in Bangladeshi Taka (BDT).
- 7) The redemption shall be made on first come first serve basis. In the event the redemption request on a particular day exceed 1% of the unit outstanding, the Asset Manager may defer, if required, the redemption request over 1% for a maximum period of 7 (seven) working days. The Asset Manager shall proceed to sell adequate assets as it deems fit to pay the surrender money within the stipulated time in the best interest of the unit holders.

3.10. Fund Management

Capitec Asset Management Ltd. will have discretionary authority over the fund's portfolio about investment decision. Capitec Asset Management Ltd. shall conduct the day-to-day management of the fund's portfolio as the Asset Management Company subject to the provisions laid down in the *সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১* and Trust Deed or any general directions given by the Trustee and/or by the Commission.

3.11. Dividend Policy

- 1) The accounting year of the fund shall be July 01 to June 30 every calendar year or as determined by the Commission.
- 2) The Fund shall, as soon as may be, after the closing of the annual accounts, distribute by way of dividend to the holders of the units in accordance with the *বিধিমালা*, an amount, which shall not be less than 70% (Seventy percent) of the realized income during the year, or as determined by the Commission from time to time.
- 3) Before declaration of dividend, the Asset Management Company shall make provision with agreement of the auditors for revaluation of investments caused from loss if market value of investments goes below the acquisition cost, and the method of calculation of this provision must be incorporated in the notes of accounts.
- 4) The Fund may create a dividend equalization reserve by suitable appropriation from the income of the fund to ensure consistency in dividend.
- 5) The Asset Management Company shall dispatch the dividend warrants at the expense of the fund, within 45 days of the declaration of the dividend and shall submit a statement within next 7 (seven) days to the Commission, the Trustee and the Custodian.

Chapter 4. RISK CONSIDERATIONS

4.1. Risk Factors

Investing in the Capitec Popular Life Unit Fund (hereinafter the fund) bears certain risks that investors should carefully consider before investing in the fund. Investment in the capital market and in the fund bears certain risks that are normally associated with making investments in securities including loss of principal amount invested. There can be no assurance that the fund will achieve its investment objectives. The Fund value can be volatile, and no guarantee can be given that investors will receive the amount originally invested. When investing in the fund, investors should carefully consider the risk factors outlined below, which are not necessarily exhaustive or mutually exclusive:

- 1. General Risk:** There is no assurance that the fund will be able to meet its desired investment objectives. Investors could potentially incur losses, including loss of principal when investing in the fund. Investment in the fund is not guaranteed by any government agency, the Sponsor or the Asset Manager. Mutual funds and securities investments are subject to market risks and there can be no assurance or guarantee that the fund's objectives will be achieved. As with any investment in securities, the Net Asset Value (NAV) of the fund may go up or down depending on the various factors and forces affecting the capital market and money market of the country. Past performance of the Sponsors and their affiliates and the Asset Manager do not indicate the future performance of the fund and may not necessarily provide a basis of comparison with other investments to this fund. Investors should study this offer document carefully before investing in it.
- 2. External Risk:** Due to relevancy, performance of the fund is substantially dependent on the macroeconomic situation of Bangladesh which can have effects on the capital market and money market of the country as well. Political and social instability may have an adverse effect on the value of the fund's assets. Changes in government policy on tax rates, interest rates may also affect the return on investments of the fund. Adverse effect of the economic crisis of the international community on the capital market of Bangladesh may hinder the performance of the fund. Bangladesh has been prone to natural disaster and political instability over last few decades. Undesirable events such as these may impact the value and performance of the fund too.
- 3. Market Risk:** Capital markets in the world as well as in Bangladesh is highly volatile, where mutual fund prices and prices of other securities can fluctuate significantly. The fund may lose its value or incur a sizable loss on its investments due to such market volatility. Stock market trends indicate that prices of majority of all the listed securities move in unpredictable direction which may affect the value of the fund. Furthermore, there is no guarantee that the market prices of the units of the fund will fully reflect their underlying NAV.
- 4. Concentration Risk:** Due to the limited number of listed securities in both the DSE and CSE, it might be difficult to invest the fund's assets in a widely diversified portfolio as and when required to do so. Because of a very thin secondary fixed income/debt market in Bangladesh, it would be difficult for the Fund Manager to swap between asset classes, if and when required. Limited options in the money market instruments would also narrow the opportunity of short term or temporary investments of the fund which may adversely impact the expected return.
- 5. Dividend Risk:** In spite of the careful investment selection of securities in the fund, if the companies/mutual funds fail to provide the expected dividend or fail to disburse the dividends declared in a timely manner, this will impact the income and the overall return of the fund.

6. **Liquidity Risk:** While investing in Pre-Public Offer Placement securities i.e. in unlisted equity securities by the fund, may involve liquidity risk. Additionally, market conditions and investment allocation may have an impact on the ability to sell securities during periods of market volatility. Debt securities, while somewhat less liquid, lack a well-developed secondary market, which may restrict the selling ability of the fund and may also lead to the fund incurring losses till the security is finally sold. While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the fund incurring losses till the security is finally sold.
7. **Investment Strategy Risk:** Since the fund will be an actively managed investment portfolio; it is subject to management strategy risk. Although the AMC will apply its diligent investment process and risk minimization techniques when making investment decisions for the fund, there can be no guarantee that such process and techniques would produce the desired outcome.
8. **Credit Risk:** Since the fund will seek to invest as per the guidelines of *সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১* in both equity and fixed income securities; the credit risk of the issuer of fixed income securities is also associated with the fund. Investment in fixed income securities are subject to the risk of the issuer's inability to meet interest and principal payments on its obligation and market perception of the creditworthiness of the issuer.
9. **Issuer Risk:** In addition to market and price risk, value of an individual security can, in addition, be subject to factors unique or specific to the issuer, including but not limited to management malfeasance, lack of accounting transparency, management performance, management decision to take on financial leverage etc. Such risks can develop in an unpredictable fashion and can only be partially mitigated, and sometimes not at all, through research or due diligence. To the degree that the fund is exposed to a security whose value declines due to issuer risk, the fund's value may be impaired.
10. **Redemption Risk:** In the event of a very large number of repurchase requests, there may be delays in the delivery of the payment.

4.2. Risk Tolerance of Investors

- 1) Individuals who do not have tolerance of bearing risk and know nothing about the functioning of the capital market need not apply for the units of the fund.
- 2) Individuals who are looking for long-term capital growth and dividend payment and are comfortable with the risk associated with equity investments should consider investing in the fund.
- 3) An individual should also consider investing in the fund if he/she can accept variability of returns, have a moderate to high tolerance for risk and is planning to invest in the fund over the medium to long-term.
- 4) Considering other factors like the investment opportunities available in the market, return expectation, income level and consumption pattern, one may put only a limited portion of his/her total portfolio into the fund.
